Ghar Ki Shobha

Schonheit
Ghar ki Shobha

Make your home exquisitely bright by giving them schonheit

The Company

It is solar based company providing the products and devices that are Eco -smart in technology and is eco friendly, we make such products that you do not have to pay anything from the electricity bill.

Products that are easy to install
And they can Last for many years!!
Go green with our Products and
they look pretty too rather than others

Make your home more attractive with our Products.

Power of Solar Energy

Solar energy is the gateway to our future for generating renewable energy. Every second, the sun produces enough energy to sustain Earth's needs for 500,000 years. Integrating the ability to harness this power within society will make us stronger. The following infographic below outlines social energy statistics and benefits

Our Product

Water Gyeser

Ceiling Fan

Pedestal Fan

Solar Light

Our Products

Ceiling Fan

100% copper wire coil motor, double ball bearing, 3 speeds control, strong power. Industrial grade high quality strong wind aluminum blades, perfect balance, big air volume, long air delivery, low noise.

The structure of the blades is optimized to work.

Pedestal Fan

Energy Saving: Save 40% to 80% electricity.

Fully Sealed motor: dust proof, smoke proof, outdoor use.

4 speeds control: 975rpm to 1400rpm.

Overload and overheat protection: the motor won't be burnt.

« Wide range voltage operation 180v~260v. stable

Water Gyeser

Auto touch control

Easy operation: Auto temperature setting &

Favorite Rated frequency: 50Hz

water temperature record for next shower.

Power: 8.5KW

Electric current leakage protection Electric

Current: 0-40A

« Tempered glass panel, LED digital display

Solar Light

A solar lamp, also known as a solar light or solar lantern, is a lighting system composed of an LED lamp, solar panels, battery, charge controller and there may also be an inverter. The lamp operates on electricity from batteries, charged through the use of solar panel (solar photovoltaic panel)

Our Products

Ceiling Fan

100% copper wire coil motor, double ball bearing, 3 speeds control, strong power. Industrial grade high quality strong wind aluminum blades, perfect balance, big air volume, long air delivery, low noise.
The structure of the blades is optimized to work.

Ceiling Fan

HI-SPEED FAN
LOW POWER CONSUMPTION
DOUBLE BALL BEARING
BEARING 400 RPM HIGH SPEED

220v Ceiling Fan

48" / 1200mm Sweep size
28w power consumption at 350rpm
Powder coated Aluminum body and blades
RF based Remote control 6 speed
Smart features like timer, reverse and sleep modes

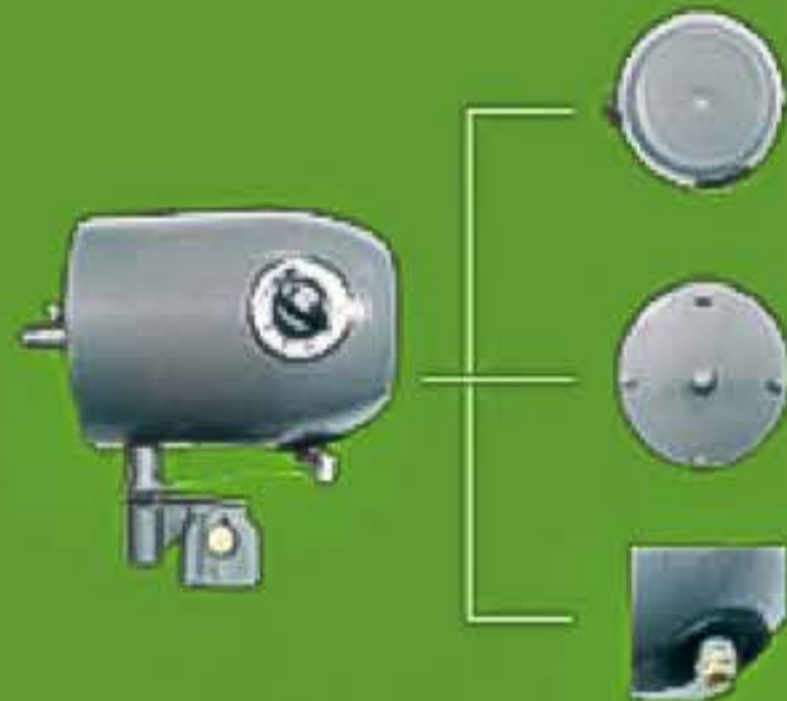

Table Fan

Sweep Size : 230mm / 9inch
Light weight and portable
Speed Levels :3
Can be charged with USB / mobile charger / solar panel
Inbuilt lithium battery
Up to 3 hour backup on full charge

BLDC FULL POWERFUL INDUSTRIAL FAN

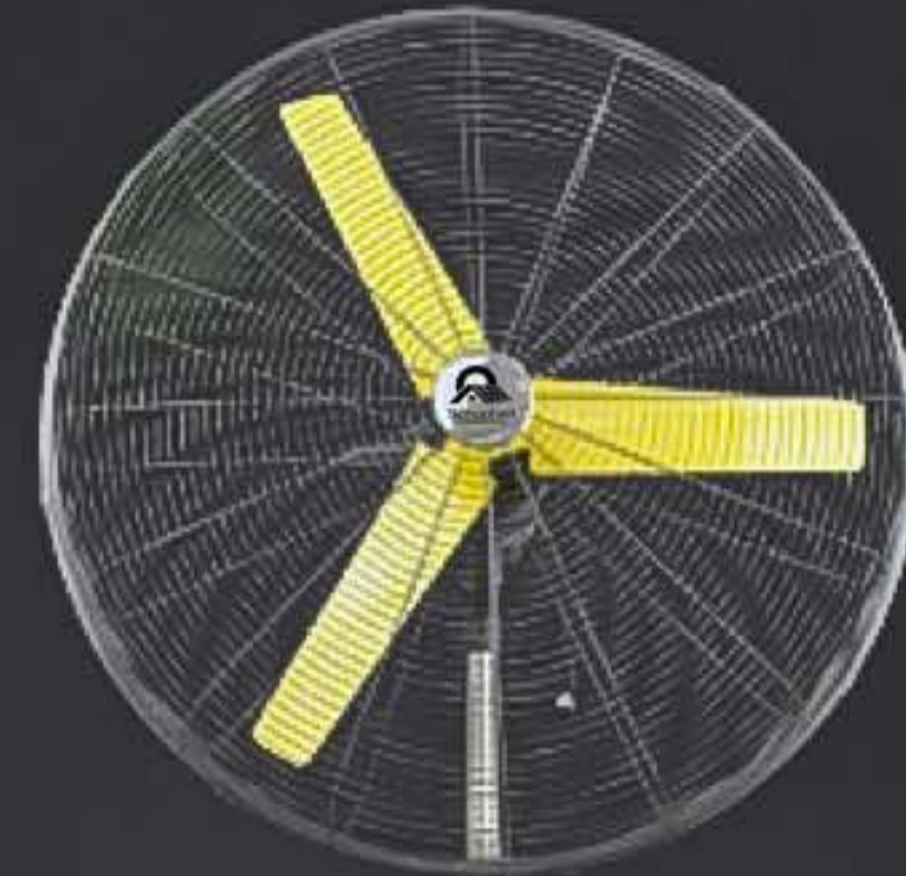

FULL SEALED MOTOR

1. Wide range voltage operation 180V-260V. Stable operation in the unstable voltage condition.
2. Independent development of chip technology, built-in anti-burn protection device, complete dipping process, make the motor life longer.
3. Finished permanent magnet rotor can reduce noise and vibration when the motor is in use.
4. The built-in bridge rectifier converts AC power into DC power, which is stable for a long time, and the gear shift is smooth.
5. The pure copper wire is directly wound on the stator with a reasonable winding method to reduce errors and more precise.
6. Large air volume blade: the big angle of blade, makes the air volume stronger.
7. Motor protection: Due to intelligent system power supply, for fan accidentally stuck, no burning for 24 hours.
8. Power saving: from 50% to 80% saving the electricity.

36-inch BLDC Industrial fan

Large Area Necessity

Super Strong Air Volume
Ultra low energy consumption
Air Delivery 24 meters

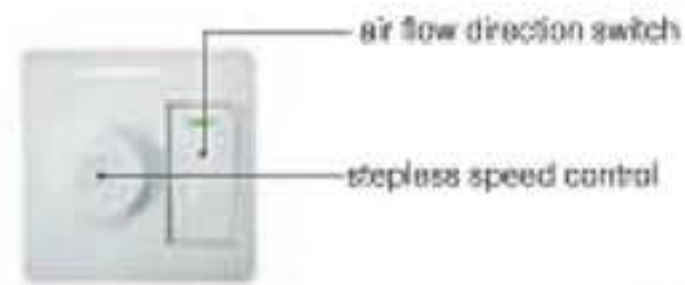

Only 260W

Overload Protection
Overheat Protection

Model	Size	Voltage (V)	Power (W)	Speed (rpm)	Air Volume (m³)	Product Size (mm)				Weight (kg)
						A	B	C	D

Product Introduction

Two way exhaust axial fan, it is based on the permanent magnet DC motor axial fan, the size is 400mm, and it is with a speed controller from the speed 600rpm to 1400rpm. Meanwhile, the switch could change the air flow direction, it can be a blower and an extractor at the same time.

MFJ-C40
(18")

Outline dimensions

Model	Voltage (V/Hz)	Frequency (Hz)	Power (W)	Speed (rpm)	Air Volume (m³/h)	Product Size/mm							pcs/cn	Weight (kg)

VARIABLE SPEED MAGNET DC BRUSHLESS TWO WAY EXHAUST AXIAL FLOW FAN

Two Way Exhaust Brushless DC Axial Fan

High efficiency, energy saving, high temperature resistance, dustproof, moisture-proof and oily fume proof

Our Products

Solar Semi Integrated Street Light

- Polycrystalline IEC/MNRE approved solar panel
- Smart MCU based charge controller and electronics
- High efficiency
- Super bright led – Osram /Philips /Seoul
- Long life Lifepo4 battery
- Aluminum powder coated housing

Water Gyeser 5.5kw

- *Auto touch control
- *Easy operation:Auto temperature setting & Favorite water temperature record for next shower.
- *Electric current leakage protection
- *Tempered glass panel, LED digital display
- *High strength ABS housing, *Stainless steel heating element
- *Fashion appearance and unlimited supply hot water
- *Easy installation
- *Overheat & dry-heating auto shut down system

Juicer Mixer Grinde

- Voltage
230 V
- Power
750 W
- Blender volume capacity liquid
1.5 L
- Motor rating
30 minute(s)

Water Gyeser 5kw

- *Auto touch control
- *Easy operation:Auto temperature setting & Favorite water temperature record for next shower.
- *Electric current leakage protection
- *LED digital display
- *High strength ABS housing, *Stainless steel heating element
- *Fashion appearance and unlimited supply hot water
- *Easy installation
- *Overheat & dry-heating auto shut down system
- *Fault auto-detection technique, trouble code display

Why Choose Us?

Our company independently develops permanent magnet DC variable frequency brushless motors.

The controller of this product uses an advanced programmable core microprocessor, integrates multiple control modes, easy operation, advanced performance, and stable work.

Now widely used products include household fans, industrial fans.

- ✓ Fan Brushless DC motor
- ✓ Energy Saving: Save 40% to 80% electricity.
Fully Sealed motor: dust proof, smoke
- ✓ 4 speeds control: 975rpm to 1400rpm.

- ✓ Auto touch control
- ✓ high strength ABS housing,
- ✓ Easy installation

ELECTRIC INFRARED COOKER

- *Touch Panel
- *High Resistant Glass
- *Ceramic Heating Element
- *Fire Proof Material
- *Timer Function

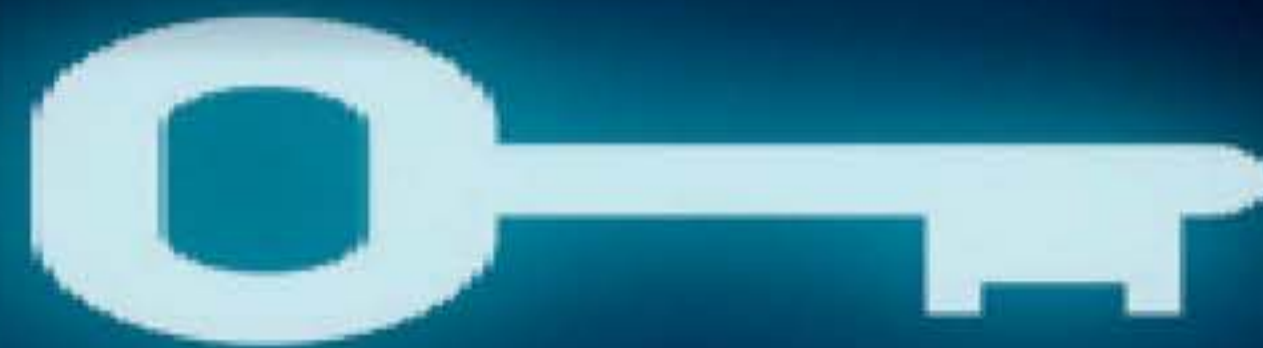

- * Indian menu options
- * Anti-magnetic wall
- * Timer with user preset
- * Automatic voltage regulator
